

Connect to the UIW Guest Network (PC)

1. In the lower right-hand corner of the desktop, locate the **Wireless Network Connection icon**,  and click it
2. From the **Wireless Network Connection list**, choose **UIW Connect** 
3. Click **Connect**
4. When the connection is established, the **Wireless Connection icon** will look like this: 

5. Open **Internet Explorer**
6. The **UIW Network welcome page** opens
7. Click **Start** 

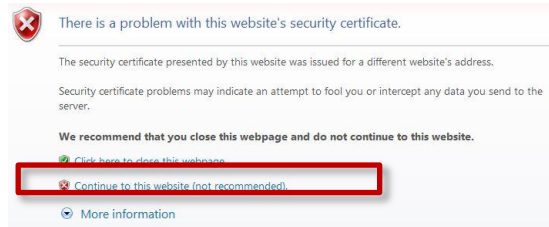

8. If after clicking **Start**, the install Java menu opens, click **Run** 

9. Select **UIW Guest Connect**
10. Click **Continue** 

11. If the **Security Certificate** warning opens, click **Continue to this Website** 

12. Type your **Guest User Name** and **Guest Password**

13. Click **Submit**
