All students who plan a program of study leading to the degree of Bachelor of Science in Athletic Training (BSAT) must first be accepted for admission to the University. Applicants then apply to the program. Program enrollment is limited by the availability of faculty and clinical field experiences, therefore admission is competitive.

The program uses a multiple tier admission process: Tier I: "Admission into the Program" and Tier II: "Admission into the Professional Practice Cohort". Tier 1: "Admission to the Program" allows the student to start foundational didactic and laboratory coursework needed to have successful clinical field experiences. Tier II: "Admission into a Professional Practice Cohort" allows the student to start clinical field experiences needed as part of the professional program. The student must successfully complete both to be eligible for credentials as an athletic trainer.

This application is for the Tier I: Admission in the Program.

Tier I: Admission into the Program
Applicants will apply for admission into the program during the semester in which they prerequisites and administrative requirements will be completed. Applications to the program are due to the program director by August 15th (Fall Admission) and January 1st (Spring Admission). Applicants work with an assigned advisor and are required to submit a completed application form. As part of the application process, the student must submit the following to be considered for admission into the program:

- A completed application form with the following support materials
- Acknowledgment of program Technical Standards
- Completion of favorable criminal background screening
- Health and Immunization Packet (includes health history form, immunizations form, and physical examination for completed by a physician, nurse practitioner or physician assistant)
- Official transcripts from all colleges attended
- Current Health Care Provider CPR and First Aid certifications

Further information about the above requirements, forms used, and selection criteria can be found on the program admission process and program requirements sections of the web page.
