You are personally invited to join,
April 13-16, 2026!

Moral Leadership is an essential component of our mission as chaplains and leaders within the Army. It embodies the principles that guide our decision-making and interactions, rooted deeply in the Army's core values. As leaders, we are called not just to educate, but to lead by example, demonstrating integrity, respect, and selfless service in all that we do.

This symposium will provide a valuable opportunity for collaboration, encouraging critical thinking and spiritual reflection. As we engage in meaningful discussions and share our experiences, let us inspire one another to embody the values we hold dear and to equip ourselves to be effective leaders in our communities.
